

Signalisation instructions Base4NFDI

In order to strengthen the external impact of Base4NFDI, all products (presentations, publications, websites) that are produced as a result of the project or are related to it or refer to Base4NFDI should show the logo. As a DFG-funded project, it is also important to pay attention to the funding reference.

Specifications in the NFDI Usage Guidelines of the DFG:

Publications and public presentations must contain a reference to the funding within the framework of the NFDI. The DFG and the project must be mentioned as follows: "Funded by the German Research Foundation (DFG) - Project number>".

Publications on Zenodo:

In addition to signalisation in the publication itself, the affiliation to Base4NFDI can also be signalised in the metadata of Zenodo:

- **Funding information**

The DFG cannot be found under "Grants", so an Additional Note with the content "Funded by DFG as part of NFDI. Grant Numbers: 521453681, 521460392, 521462155, 521463400, 521466146, 521471126, 521473512, 521474032, 521475185, 521476232" should be created.

- **Select Base4NFDI Community**

During upload, the Base4NFDI community can be selected. After the administrator has confirmed the publication, it appears in the community overview:
